

# HEARING AID MAINTENANCE

Keep Your Hearing Aids in Top Shape!

## Daily Care

- Wipe with microfiber cloth
- Brush off earwax (mic & receiver)
- Open battery door overnight

## Weekly Check

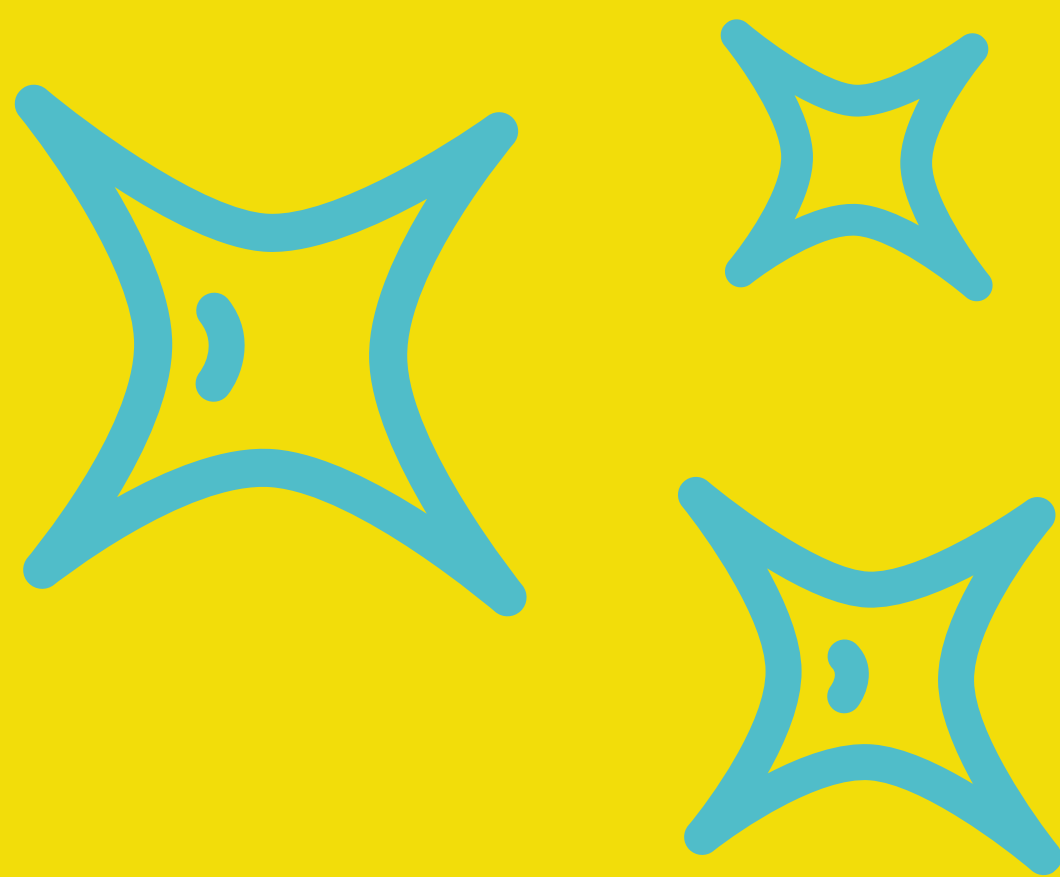

- Replace wax guards
- Inspect BTE tubing (moisture/cracks)
- Clear microphone ports

## Avoid These!

- Moisture (showers, rain, sweat)
- Extreme temps (hot cars, freezing)
- Hairspray/perfume (apply first)

## Monthly Deep Clean

- Use cleaning kit (brush/pick)
- Wash BTE earmolds (soap + water)
- Consider professional cleaning

## Pro Tips

- Store in drying kit overnight
- Use protective case when traveling
- Keep pets/kids away (they chew!)

## Quick Troubleshooting

Problem	Fix
No sound	Replace battery
Whistling	Reinsert/recheck fit
Muffled	Clean wax guards

## Did You Know?

Proper care adds 2-3+ years to hearing aids lifespan!
